1 FPDS-NG REPORTING QUICK START

This document details the reporting function of the Federal Procurement Data System-Next Generation (FPDS-NG). This section provides an abbreviated guide to the reporting function of FPDS-NG. These concepts are presented in an expanded version beginning in section 2 .

1.1 Quick Start Process

FPDS-NG must be installed to access the reporting function. Use the following procedure to import events into FPDS-NG and produce reports.

1. Go to <https://www.fpds.gov>.
2. Login with the user ID “serid” and the password provided by your agency’s System Administrator.
3. Select the Buy Reports option.
4. Select the available reports by selecting the associated check boxes.
5. Click the Buy button. The selected reports will appear in the bottom half of the screen.
6. Select the purchased reports by selecting the associated check boxes.
7. Click the Checkout button. The selected reports will appear in a searchable library called My Reports.
8. Select the report you want to display. The search criteria for your report appear.
9. Add your default report’s search criteria.
10. Save and execute the search criteria to produce the report.

2 BACKGROUND

FPDS-NG is the Federal Procurement Data System -Next Generation. FPDS-NG reporting helps the federal government track users, performance, and contract statistics. FPDS-NG gathers procurement events from the Event Log and puts each event into a database for analysis and reporting.

FPDS-NG Reports allows users to analyze performance, contract, and user data from the FPDS database. As more data is added to the FPDS-NG database, more reports will be added. Table 1, below, shows the list of reports provided in this software release.

This FPDS-NG Reports User Guide describes the main components of the FPDS-NG reporting system, how the system works, and how to use the system on a daily basis. This user guide covers Version 1.1 of FPDS-NG, which was installed on November 17, 2003.

3 USING FPDS-NG REPORTS

FPDS-NG produces reports automatically by querying the FPDS database and creating a report based on your search criteria.

The first step is to Buy or Subscribe to your reports as shown in Figure 1.
